EVALUATION 25X1X PLACE OBTAINED 25X1A DATE OF CONTENT DATE OBTAINED 25X1A DATE OF CONTENT DATE OBTAINED 6 October 1953 REFERENCES 1 PAGES ENCLOSURES (NO. 2 TWFE). REMARKS 1. At 3:30 p.m. on 3 July 1953, no air activity was observed at Warsau- Pernerowo (R 55/F 99) airfield. A hangar, about 50 meters wide, with a vaulted plexiglass roof was located about 20 meters north of the southern edge of the field, at a right angle to the railroad line. Just west of the hangar was an installation in which jet engines were apparently running, as a loud roaring noise was heard. The tail units of three NIG-15s without markings were observed about 50 meters north of the hangar. So No additional observations could be made as the suthern edge of the airfield is surrounded by a wall, about 2 meters high, and because the railroad line along the field is located rather deep, Several policemen (militia) wearing brown uniforms with red pipings were posted along the wall on the southern edge. 2 2. While passing along the field on S July at 2:30 a.m. on IS July at 2 a.m. and on 19 July at 3 a.m., source observed no lights at the field and that no air activity was being conducted. 3. A fuel dump with tank trucks and many fuel containers was observed about 200 meters south of the railroad line in line with the hangar. 3 4. The railroad kilometer marker 0 is located near a cylich tower on the western bank of the Vishula River, between the Vistula River bridge and the Cdanski railroad station. The railroad line which extends along the field has newly been built. 4 1. Comment. According to available information, Warsaw-Bernerow (Babice) alrifield is occupied by 2 or 3 Folish fighter regiments which are equipped with MiG-15s. 2. Comment. The hangar rentioned is the southermost of the two hangars and are located next to Port Bems. The assumed test stand for jet engines is reported for the first time.		Warsaw - Bernerowo Air		EFORT NO.
